

Ireland's Biodiversity Emergency

Peatland Species of Concern

Birds

211 Species Assessed
133 Species Red-listed
18.8% of these utilise peatland

Bryophytes, Hornworts, Liverworts and Ferns

835 Species Assessed
314 Species Red-listed
17.19% of these utilise peatland

Vascular Plants

1211 Species Assessed
202 Species Red-listed
11.4% of these utilise peatland

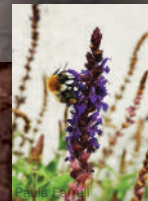

Non-Marine Mollusca

150 Species Assessed
53 Species Red-listed
15.09% of these utilise peatland

Bees

102 Species Assessed
45 Species Red-listed
11.11% of these utilise peatland

Butterflies

33 Species Assessed
12 Species Red-listed
41.7% of these utilise peatland

Dragonflies & Damselflies

24 Species Assessed
5 Species Red-listed
60% of these utilise peatland

Water Beetles

244 Species Assessed
73 Species Red-listed
26% of these utilise peatland

Macro-moths

505 Species Assessed
78 Species Red-listed
30.8% of these utilise peatland

The information and data has been collated from the Red-list Series produced by the National Parks and Wildlife Service available at www.npws.ie/publications/red-lists.

Information on species habitat preference from various sources.
An Irish Flora, D.A. Webb, J. Parnell and D. Doogue, 1996, Mosses and Liverworts of Britain and Ireland - a field guide, British Bryological Society 2010, Field Guide to the Dragonflies and Damselflies of Great Britain and Ireland. Steve Brooks, Richard Lewington, 1997.
